A SHORTENED STATUTORY PERIOD FOR REPL THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1. after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a repleted in the provided for reply specified above, the maximum statutory period Failure to reply within the set or extended period for reply will, by statuted the provided part of the mailing earned patent term adjustment. See 37 CFR 1.704(b).	136(a). In no event, however, may a reply be timely within the statutory minimum of thirty (30) days will apply and will expire SIX (6) MONTHS from the cause the application to become ABANDONE	nely filed s will be considered timely. the mailing date of this communication. D (35 U.S.C. § 133).			
Status					
1)⊠ Responsive to communication(s) filed on 11 .	January 2005.				
. —	Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under <i>Ex parte Quayle</i> , 1935 C.D. 11, 453 O.G. 213.				
Disposition of Claims					
4) Claim(s) 1-12 is/are pending in the application 4a) Of the above claim(s) 6-12 is/are withdraw 5) Claim(s) is/are allowed. 6) Claim(s) is/are rejected. 7) Claim(s) is/are objected to. 8) Claim(s) are subject to restriction and/ Application Papers 9) The specification is objected to by the Examin	or election requirement.				
10) The drawing(s) filed on is/are: a) ac Applicant may not request that any objection to the Replacement drawing sheet(s) including the corre 11) The oath or declaration is objected to by the E	e drawing(s) be held in abeyance. See ction is required if the drawing(s) is ob	e 37 CFR 1.85(a). lected to. See 37 CFR 1.121(d).			
Priority under 35 U.S.C. § 119					
 12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f). a) All b) Some * c) None of: 1. Certified copies of the priority documents have been received. 2. Certified copies of the priority documents have been received in Application No. 3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)). * See the attached detailed Office action for a list of the certified copies not received. 					
Attachment(s) 1) Notice of References Cited (PTO-892) 2) Notice of References Cited (PTO-892)	4)				
 2) Notice of Draftsperson's Patent Drawing Review (PTO-948) 3) Information Disclosure Statement(s) (PTO-1449 or PTO/SB/06) Paper No(s)/Mail Date 		Patent Application (PTO-152)			

DETAILED ACTION

Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 1-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Farber et al. (PN 6,780,756) in view of Matsuda (PN 6,329,230).

Farber et al. discloses, as shown in Figures 1 and 2, a semiconductor device comprising:

a semiconductor substrate (7);

source and drain electrodes (8,9), which are formed on the semiconductor substrate to make ohmic contact with the semiconductor substrate;

a gate electrode (10), which is formed between the source and drain electrodes on the semiconductor substrate;

a first insulating layer (21) formed on the semiconductor substrate;

a silica aerogel layer (20) formed on the first insulating layer [Col. 3, lines 57-60];

second insulating layer (20) formed on the silica aerogel layer, the source electrode and the drain electrode, the second insulating layer including aerogel, the second insulating layer is coupled to the gate electrode [by layer (17,18)].

Farber et al. does not disclose the gate electrode has a T-shaped gate. However, Matsuda disclose a semiconductor device comprising a T-shaped gate electrode (10,14,15). Note Figures Application/Control Number: 10/723,526 Page 3

Art Unit: 2811

2E, 3G, 4G and 5G of Matsuda. Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to form the gate electrode of Farber et al. having a T-shaped gate, such as taught by Matsuda in order to reduce the gate resistance.

Regarding claim 2, Farber et al. and Matsuda disclose the first insulating layer is formed of silicon nitride and the second insulating layer formed of silica aerogel [Col. 3, lines 57-63].

Regarding claim 3, Farber et al. and Matsuda disclose the silica aerogel layer has a thickness greater than the thickness of the first insulating layer.

Regarding claims 4 and 5, Farber et al. and Matsuda do not disclose the thickness of the first insulating layer and the aerogel layer. However, it would have been obvious to one having ordinary skill in the art at the time the invention was made to form the first insulating layer and the aerogel layer having a desired thickness, since it has been held that discovering an optimum value of a result effective variable involves only routine skill in the art. In re Boesch, 617 F.2d 272, 205 USPQ 215 (CCPA 1980).

Response to Arguments

2. Applicant's arguments with respect to claim1 have been considered but are moot in view of the new ground(s) of rejection.

Application/Control Number: 10/723,526

Art Unit: 2811

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hung K. Vu whose telephone number is (571) 272-1666. The examiner can normally be reached on Mon-Thurs 6:00-3:30, alternate Friday 7:00-3:30, Eastern Time.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eddie C. Lee can be reached on (571) 272-1732. The Central Fax Number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0956.
